🎓 Education

B.Sc. (Engg.) in Software Engineering,
Shahjalal University of Science and Technology
01.2018 – 12.2022 | Sylhet, Bangladesh
CGPA : 3.33(B+)

👛 Professional Experience

Intern Software Engineer, Vivasoft LTD
09.2021 – 02.2022 | Dhaka, Bangladesh
Vivasoft LTD is service provider company. As the Front End Developer, my **core activities** included:

1.NEMC(Northeast Medical College)
It is management system for medical students, their parent, teacher, staff and admin.

- Convert figma to responsive templates for **40+ web pages** using JQuery, HTML5, CSS/Tabler.

2.WELLTEAM
Wellteam provides global challenge to their member for use online tools to explore, experiment with, then log activity and earning points on local and global leaderboards.

- Building stable and maintainable codebases and convert figma to responsive templates using Next.js and Tailwind CSS.

- Creating component library using typescript. Ex: Custom table component for use of crud functionality, Custom modal component for creating dialogs or whatever else.

- State management with React Context api.

- Api integration using React-query.

- Solving authentication using NextAuth.

3.STS(Service Ticketing System)
It connects support team with customers across global client based service providers.

- Developed with NextJS, NextAuth, React-Query, React Context api, Tailwind CSS and Typescript.

🧠 Skills
